### **DETAILED ACTION**

Examiner acknowledges receipt terminal disclaimer and remarks filed 4/25/06 . Claims 1-9 and 11-19 are pending.

#### ***Double Patenting***

1. The terminal disclaimer filed 4/25/06 overcomes the rejection of claims 1-9 and 11-19 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-9 of U.S. Patent No. 6,770,123.

Upon further consideration, the rejection below follows.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-9 and 11-19 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the silsesquioxane having R as a 6-carbon, does not reasonably provide enablement for full scope of silsesquioxane where the R is 7-carbon to 18-carbon, and for all the straight or branched silsesquioxane and where the x is greater than 2 . The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.

Art Unit: 1618

In this case, the full scope of the silsesquioxane given by formula I in the specification represents an invitation to experiment. The specification does not inform the public of the limits of the monopoly asserted.
